Our story

ARABLAB LIVE KSA is the dedicated platform for lab science and industrial analytics in Saudi Arabia.

Born from the legacy of ARABLAB LIVE in Dubai—the region’s largest international lab show—this event answers the demand from the global community seeking to enter the Saudi market. ARABLAB LIVE KSA represents a strategic leap forward in establishing Saudi Arabia’s capabilities in laboratory sciences. By bringing the region’s premier lab platform to the Kingdom, we directly support the development of Saudi Arabia’s quality infrastructure - the essential ecosystem of standards, quality control and metrology that ensures world-class scientific excellence.

With 95% Saudi attendance, the event connects international brands with Saudi lab directors, government regulators, and industry decision-makers from oil & gas, petrochemicals, chemicals, water, mining, food, pharma, construction, healthcare, and manufacturing—sectors all seeking compliant lab solutions supporting Vision 2030 goals.

Get involved today: The platform where Saudi lab demand meets global supply, compliance is simplified, and business gets done.
